

Desktop Golf Pen Kit Instructions

You will need:

Drill bits: 7mm

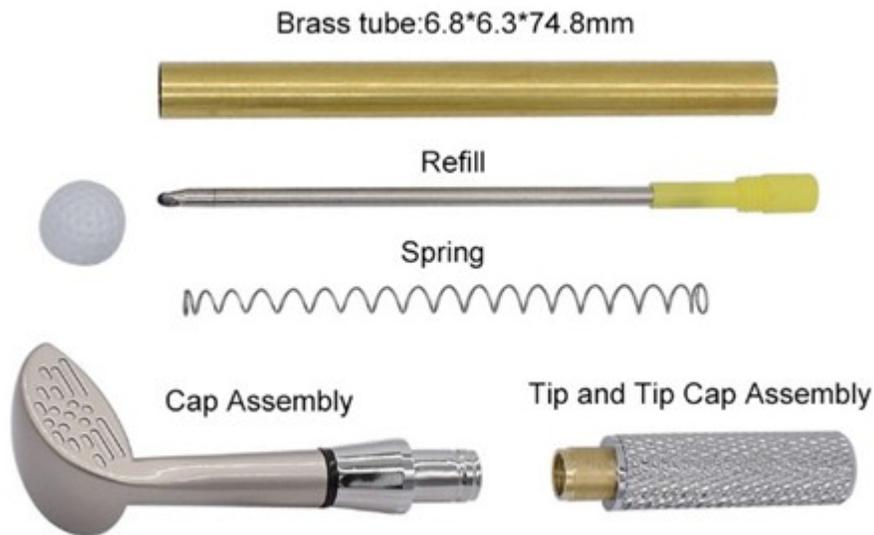

Desktop Golf Bushing

Drill, Tube & Square your blanks & mount on your mandrel

Turn your blank down to the bushings. Polish & finish blank

Lay out your parts based on the diagram below

Assembling the pen

1. Unscrew the cap assembly (Cap & Cap Coupler) be careful not to lose the black ring.
2. Press the cap coupler into one end of the tube.
3. Screw the cap with the black ring to the cap coupler.
4. Unscrew the tip cap assembly (Tip, Tip Coupler & Tip Cap)
5. Press the tip coupler into the other end of the tube. *be sure to loosen the threads before pressing
6. Unthread nib section from nib coupler and insert the spring with the refill. *Spring has one end that is tighter, this end should be threaded on first, towards the yellow mechanism.
7. Screw the tip to the tip coupler.
8. Place the tip cap over the tip.
